INFORMATION DISCLOSURE STATEMENT (37 C.F.R. 1.97(b)(3))

Sir:

With regard to the above-identified application, the items of information listed on the enclosed Form 1449 and a copy of each reference cited thereon are brought to the attention of the Examiner.

This statement should be considered because it is submitted after three (3) months of the filing date but before receipt of the First Office Action on the merits. Accordingly, no fee is necessary.

BRIEF DESCRIPTION OF RELEVANCE

PCT WO 00/09313 (Heath) is the published PCT application for which this patent application claims benefit of priority.

PCT WO 97/21534 (Zeiter et al.) discloses a process for making cold-formed packages with at least one recess of a metal-plastic composite. This reference was cited on the International Search Report of applicant's own PCT WO 00/09313.

PCT WO 99/08857 (Kearney et al.) discloses a laminated film in which a metal foil is sandwiched between two polymeric films and is cold-formed to define one or more blisters with the base stamped with indicia in two discrete stages. The reference is discussed on page 2 of applicant's specification.

U.S. Patent No. 5,457,895 (Thompson et al.) discloses the application of identifying marks to freeze-dried tablets without the application of pressure or directly printing on the tablet. This reference was cited on the International Search Report of applicant's own PCT WO 00/09313.

European Patent Application 563 934 (Eggert et al.) discloses blister packs containing dosage forms. This reference was cited on the International Search Report of applicant's own PCT WO 00/09313.

European Patent 646 367 (Kearney et al.) discloses a multilayer laminated blister film and is discussed in applicant's specification on page 2 and was cited on the International Search Report of applicant's own PCT WO 00/09313.

European Patent 710 101 (Kearney et al.) discloses a method for manufacturing freeze-dried dosages in a multi-laminate blister pack and is discussed in applicant's specification on page 2 and was cited on the International Search Report of applicant's own PCT WO 00/09313.

European Patent Application 905 042 (Oster et al.) is accompanied by a translation and discloses blister or break-through packs with a base section and a cover in metal and/or plastic-

containing foils, with at least the base section containing moulded recesses as a negative or positive imprint.

Applicants are submitting this art because they recognize their duty to disclose pursuant to 37 C.F.R. 1.56. However, submission of this art and Statement is not an admission that any item identified contains matter that anticipates the invention or that renders the invention obvious to a person of ordinary skill in the art. Further, Applicants believe that none of the art submitted herewith, alone or in proper combination, discloses, teaches or suggests the invention claimed by Applicants.

No representation is made that a reference constitutes prior art within the meaning of 35 U.S.C. 102 and 103 and Applicants reserve the right, pursuant to 37 C.F.R. 1.131 or otherwise to establish that the reference(s) are not "prior art." Moreover, Applicants do not represent that a reference has been thoroughly reviewed or that any relevance of any portion of a reference is intended.

Consideration of the items listed is respectfully requested. Pursuant to the provisions of M.P.E.P. 609, it is requested that the Examiner return a copy of the attached Form 1449, marked as being considered and initialed by the Examiner, to the undersigned with the next official communication.

Respectfully submitted,

Dated: 9/18/06

Examiner: Initial if citation considered, whether or not citation is in conformance with MPEP §609. Draw line through citation if not in conformance and not considered. Include copy of this form with next communication to Applicant.

The identification of any document herein is not intended to be, and should not be understood as being an admission that each such document, in fact, constitutes "prior art" within the meaning of applicable law since, for example, a given document may have a later effective date than at first seems apparent or the document may have an effective date which can be antedated. The "prior art" status of any document is a matter to be resolved during prosecution.
